## DESCRIPTION & OBJECTIVES

Neuro Continuity of Care is an advanced case management conference featuring nationally recognized experts in the rehabilitation of brain injured patients.

This one-day program will give you up to date information about current treatment techniques and available resources that affect persons with catastrophic brain injuries and illnesses. By the end of the conference, participants will be able to:

- Become familiar with the various levels of medical and rehabilitation care for patients with brain injuries.
- Learn the various treatment options in rehabilitation of brain injury patients.
- Become aware of the frequent medical complications after brain injury.
- Understand the complete definition of Skilled Nursing Facility (SNF) along with Medicare transfer requirements including denials and exclusions.
- Understand Medicare benefit days / periods and payment to SNF based on RUGS system.
- Understand Medicare funded SNF services and additional SNF services enhancing patient experience
- Understand the importance of on-site evaluations versus a fax referral.
- Understand the role and purpose of a community integration program.
- Understand services provided in Memorial Hermann TIRR Challenge Program
- Access the clinical appropriateness for discharge to Home Healthcare versus Home Care.
- Become aware of the funding resources and discharge issues of Home Health and Home Care.
